# The MELAG Pro-Class

## We are the right partner by your side.

Decades of experience in conjunction with the specialized expertise in infection control guarantee the most reliable and innovative solutions in the field of instrument decontamination: The Pro-Class steam sterilizers convince with ease of use, sustainability and superior quality. Get an overview of our advantages at a glance:

 **Experience:**  
Specialization since 1951

 **Trust:**  
Over 500,000 units sold worldwide

 **Quality:**  
Made in Germany

 **Innovation:**  
450 specialized employees in Berlin

 **System Solution:**  
Instrument decontamination from a one-stop provider

### The product highlights

#### Performance

High loading capacities and quick sterilization times enable efficient workflows.

#### Safety

The integrated documentation interface provides maximum process reliability.

#### Flexibility

Benefit from our wide range of products and choose between devices with three chamber depths as a fixed water or stand-alone unit.

#### User-friendliness

The MELAG 4-key concept and our digital tools make for an intuitive operating concept.

Find out more about the product highlights in our video [www.melag.com/en/multimedia](http://www.melag.com/en/multimedia)

### As versatile as your needs:

#### Vacuklav® 30 B+

Steam sterilizer with a 35 cm chamber depth and a fixed water supply

#### Vacuklav® 31 B+

Stand-alone steam sterilizer with a 35 cm chamber depth

#### Vacuklav® 23 B+

Stand-alone steam sterilizer with a 45 cm chamber depth

#### Vacuklav® 24 B+

Steam sterilizer with a 45 cm chamber depth and a fixed water supply

#### Vacuklav® 24 BL+

Steam sterilizer with a 60 cm chamber depth and a fixed water supply

# The Pro-Class product highlights

These advantages are unique.

Gain more time for your patients: All our research and development efforts are focused on providing an efficient and safe workflow in instrument decontamination. Take advantage of the time- and cost-saving benefits provided by short sterilization times, the intuitive operating concept and the versatile documentation of our stand-alone and fixed-water supply solutions.

## Performance

Short sterilization processes for your practice and clinic: Quick-Program (including pre-vacuum) sterilizes unwrapped instruments in **only 15 minutes\***. Larger quantities of wrapped instruments can be reprocessed in only 28 minutes\* using the Universal-Program.

MELAG provides a wide range of insert racks to ensure an individual use of the sterilization chamber. The aligned accessories make for the **optimal loading of the steam sterilizers** with up to **7 kg of instruments**.

\* without drying

## Safety

MELAG steam sterilizers monitor all the relevant **process parameters using a highly precise microprocessor control** to guarantee highest safety standards. The program logs provide legal certainty and are saved via a serial interface.

**Our aligned documentation media offer maximum flexibility:** Customize the documentation process with MELAflash CF-Card Printer, MELAnet Box, MELAprint® 44 or the approval software MELAtrace® to your needs.

## Flexibility

The two systems of the Pro-Class fit the requirements of your decontamination room: Choose between steam sterilizers with a fixed water supply or stand-alone units. The integrated water tanks and the patented air-cooling system of Vacuklav® 31 B+ and Vacuklav® 23 B+ make them **completely independent of location and easy to install**.

Pro-Class steam sterilizers with a fixed water supply are equipped with a **high-performance vacuum technology**. The use of a MELAG water treatment unit for automated **water supply and disposal** reduces your workload and thus saves time and money.

## User-friendliness

The easy use of Pro-Class steam sterilizers allows you to concentrate on patient treatment: The **proven MELAG 4-key concept** enhances your workflow and avoids operating errors.

In addition to the intuitive operating concept, our **digital tools take the instrument decontamination process to the next level**. Discover these innovative multimedia solutions on the MELAG website.

## Digital tools for smart workflows

Benefit from the digital tools on our website.

# The MELAG System Solution

## Your one-stop provider for instrument decontamination.

The Pro-Class steam sterilizers are an important element of an efficient instrument decontamination workflow. The perfect alignment of the MELAG System Solution helps you to save time and money whilst providing the best-possible protection for patients and staff.

Benefit from the MELAG System Solution with products from the leading manufacturer in infection control:

**Personal:**  
A central contact partner to answer all your questions

**Efficient:**  
Reducing costs by synchronizing the service

**Process-optimized:**  
Perfect alignment of the workflow and operation

Enhance the quality of instrument decontamination: Combine the MELAG steam sterilizers with MELAtherm® washer-disinfectors for efficient cleaning and disinfection, MELAseal® sealing devices for safe instrument packaging and the user-friendly documentation and approval software MELAtrace® to ensure an ideal workflow in practice and clinic.

\*in conjunction with MELAtrace®

## The instrument decontamination process:

✓ Cleaning and disinfection with MELAtherm®

✓ Packaging with MELAseal®

✓ Sterilization with the Pro-Class

✓ Documentation and approval with MELAtrace®

✓ Labelling with MELAprint® 60

# Perfection in the finest detail

## Configure your Pro-Class steam sterilizer.

Use the full potential of the Pro-Class: With the wide range of accessories available for the MELAG Pro-Class, you can tailor the workflow to your requirements, thereby ensuring the best instrument decontamination workflow.

### Loading system

Benefit from our loading system to ensure the optimal use of the sterilization chamber.

**Mount A Plus**  
accommodates five trays (for single instruments) or three MELAstore®-Boxes (for instrument sets)

Trays:  
Art. no. 00230 for Vacuklav® 23 / 24 B+  
Art. no. 00280 for Vacuklav® 30 / 31 B+

**MELAstore® System:**  
Art. no. 01181 for MELAstore®-Tray 100  
Art. no. 01191 for MELAstore®-Box 100

**Mount D**  
can be loaded with two higher sterilization containers of the MELAstore® System

Art. no. 01182 for MELAstore®-Tray 200  
Art. no. 01192 for MELAstore®-Box 200

**Foil holder**  
permits the vertical sterilization of wrapped instruments for perfect drying results

Art. no. 22420 for Vacuklav® 23 / 24 B+  
Art. no. 22410 for Vacuklav® 30 / 31 B+

### Documentation

The Pro-Class steam sterilizers guarantee legally-compliant documentation and approval with modern output media.

**MELAttrace®**  
for the professional documentation, approval and traceability of the entire decontamination process  
Art. no. 21138

**MELAnet Box**  
transfers all logs to the computer and into the practice network automatically  
Art. no. 40296

**MELAflash CF-Card Printer**  
saves all logs of the steam sterilizer simply and easily on a CF-Card  
Art. no. 01039

**MELAprint® 44**  
prints the sterilization logs in paper form  
Art. no. 01144

### Water treatment

MELAdem® water treatment units provide high-quality demineralized water to protect both your steam sterilizer and your instruments.

**MELAdem® 40**  
is an ion exchanger for practices and clinics sterilizing up to three cycles per day  
Art. no. 01049

**MELAdem® 47**  
is a high-performance reverse osmosis unit for practices and clinics with larger sterilization requirements  
Art. no. 01047

**MELAdem® 53 / 53 C**  
is a high-capacity water treatment unit for MELAtherm® and up to three further devices  
Art. no. 01038

**MELAJet®**  
facilitates instruments rinsing and flushing with demineralized water\*  
Art. no. 27300

### Routine checks

Batch control is required for evaluating the sterilization results. MELAG offers safe test systems for Class B steam sterilizers.

**MELAcontrol®**  
is a helix test system with 250 indicator strips permitting reliable sterilization batch control  
Art. no. 01080

**MELAcontrol® PRO**  
is a re-usable helix test for an even more cost-saving batch control  
Art. no. 01075

Find out more about the sterilization process with Class B autoclaves:  
[www.melag.com/en/multimedia](http://www.melag.com/en/multimedia)

\*Compatible with MELAdem® 40 and MELAdem® 47
