## Experience and Reputation

DMI has over 15 years experience installing and servicing equipment in dental practices throughout Ireland. As a DMI customer, you have access to experienced, factory-trained professionals to install and service your equipment.

## Peace of Mind

DMI engineers are continuously trained and accredited by our top suppliers such as A-dec, Planmeca, Carestream and Melag. We have access to the very latest technology for testing and commissioning equipment. We have invested heavily in spare parts and loan equipment to ensure a prompt response to your needs. Only genuine parts are used for all repairs.

## Fast Response

Our nationwide team of engineers can respond promptly in the event of a breakdown. We also have in-house specialists who can provide free technical advice over the phone. By asking the right questions and listening carefully we take the time to understand your unique needs.
